AH26225BLX-CIN

Cinder uses our ZSG-Ultima (Zero Slip Grip) compound.

This is a proprietary blend of materials exclusive to Panaracer that insures the longest wear and best grip in any kind of conditions.

This compound, combined with our unique Multi-Step knob configuration, offers exceptional traction and control with both mechanical and disc brake set-ups.

Our ASB(Anti Snake Bite) chafer made from anti-rebound rubber, may help reduce the chance of pinch flats by up to 40%.

Debut! New XC Riding Tire for 2004
